

ENCLOSURE 2
GARY S. RASMUSSEN & ASSOCIATES, INC.
C-Y Development
Yucaipa, California

Legend

---...? Fault; dashed where approx.,
dotted where buried, queried
where questionable

--- Magnetometer lines

Subsurface investigation
trench

Base Map San Bernardino County Flood
Control 1"=200' scale map
Project No. 1237

Figure 1. Part of the Chicken Hill fault zone near Tenth and "D" Streets, Yucaipa, California. This map is a modification of Enclosure 2 of a consulting report by Rasmussen and Associates, dated October 11, 1977 (our A-P file no. C-259). The heavy black lines represent the fault traces as mapped by Rasmussen (see legend). The hachured zones represent scarps, and the red lines represent the probable surface projections of the fault traces that I believe generated the scarps. I transferred the scarp locations from 1952 aerial photography to this base map using our Bausch and Lomb zoom transfer scope.
